Friends and partners of Higher Ground:

Joyce and I have been living in California for the past month. We are living in Joyce's condo. It took about two weeks for my books to arrive. They are my tools. I have since converted the spare bedroom into an office. It is complete with bookshelves, a desk, a file cabinet and a few pictures which hold memories for me.

I am writing to keep you informed of the status of Higher Ground Ministry. We are still active in Kenya and Uganda prisons. Higher Ground lessons continue to be the government approved training materials for chaplain assistants in Kenya. Higher Ground materials are also being used in Sierra Leone, the Philippines, and Mexico. When I first saw the need in 2004 God spoke to me, I doubted. Then these words arrested me: "I can do something about that." I allowed God to lead me to begin Higher

Ground. I now realize the words didn't refer to me. God is doing something about it through me and the partners He has given me over the years. In twenty years more than 1200 students have graduated from our village ministry.

Higher Ground trained men and women are serving the Lord as pastors and Christian workers in East Africa. Higher Ground lessons are used to instruct Bible college students in Sierra Leone. The missionary influence there has become a movement. Mike has sent out 26 pastors and planted 26 churches cities throughout the country. Several of the cities are Muslim. They have changed their holy-day Friday to Sunday to identify with the Christian faith.

The postal service has not forwarded mail to us due to fraud concerns. They advised me to notify senders personally of our address change. In April and May offerings have been low. I received about 60% of our usual monthly income. We need \$2500 for Bibles and supplies in Kenya. I am praying for new partners to help us reach East Africa. Thank you for your prayers and gifts. Higher Ground could not exist without you.

God bless you and keep you,

Harold and Joyce Anderson
